**CONTINUED EXAMINATION UNDER 37 CRR 1.114**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 26 September 2007 has been entered.

**DRAWINGS**

2. This application has been filed with informal drawings, which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application discloses a system and method for processing an input signal. A search of prior art records has failed to teach or suggest, alone or in combination:

A system for processing an input signal, the system comprising:

“ wherein said predistorted signal is represented as a sequence of magnitude and phase pairs; and wherein said signal decomposer includes a phasor fragmentation engine to receive said sequence of magnitude and phase pairs, said phasor fragmentation engine adapted to decompose said predistorted signal into said at least two components, each of said at least two components exhibiting a respective magnitude and having a respective varying phase, said respective magnitudes of at least two of said at least two components being substantially equal” as disclosed in claim 1.

A method of processing an input signal to produce a system output signal, the method comprising:

“ predistorting, via applying a deliberate predistortion, said input signal to provide a predistorted signal represented as a sequence of magnitude and phase pairs; wherein said decomposing comprises receiving said sequence of magnitude and phase pairs and producing therefrom said at least two component signals, each of said at least two component signals exhibiting a respective magnitude and having a respective varying phase, said respective magnitudes of at least two of said at least two component signals being substantially equal” as disclosed in claim 12.

Art Unit: 2611

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
